

# Substance Abuse and Intimate Partner Abuse Perpetrators:

## Connections, Risk Considerations, and Treatment Protocols

---

**Thursday, June 8th**  
**@ 3:00-4:30 p.m. ET (90 minutes)**

Please join us for a webinar that examines intimate partner violence (IPV) perpetrators' use of alcohol and drugs as contributing risk factors to further abuse. This webinar will provide an overview of the connections between substance misuse and IPV, including how abusers use substances as both an excuse and a tactic of control, and how and when substance abuse becomes a risk factor for serious re-assaults and homicide. The presenters will also make treatment recommendations and highlight model practices for treatment and court oversight of offenders who abuse substances as well as their partners.

This webinar is free and open to all who wish to attend.

**Faculty:**

Larry Bennett, PhD, LCSW Professor at Indiana University  
David Adams, Ed.D, Co-Director, Emerge
