The Adult Children Exposed to Domestic Violence (ACE-DV) Leadership Forum is a special project of the National Resource Center on Domestic Violence. This group is comprised of local, state, and national advocates and allies in the movement to end gender based violence who identify as having experienced domestic violence as a child. Together, we established the Leadership Forum to amplify the voices and experiences of ACE-DV to enhance our work to end domestic violence.

*We envision a movement that includes the perspectives and priorities of ACE-DV in the provision of services, the development of policies, the direction of research, and the general approach to effectively address and prevent domestic violence.*

Contact us for technical assistance, training, and support related to the development of materials, research, programs, and policies that impact the lives of children exposed to domestic violence.

**Make space at the table for children exposed to domestic violence.**
