

Maryland Network Against Domestic Violence

Application for Training and Technical Assistance to Implement the Domestic Violence Lethality Assessment Program—Maryland Model (LAP)

This project was supported by Grant No. 2011-TA-AX-K111 awarded by the Office on Violence Against Women, U.S. Department of Justice. The opinions, findings, conclusions, and recommendations expressed in this publication are those of the authors and do not necessarily reflect the views of the Department of Justice, Office on Violence Against Women.

Project Description

The Office on Violence Against Women (OVW) has awarded the Maryland Network Against Domestic Violence (MNADV) funding under the OVW Technical Assistance Program to provide training and technical assistance to aid communities across the country in promoting or enhancing strategies to address homicide prevention and reduce violence against women through the *National Lethality Assessment Program—Maryland Model (LAP) Training and Technical Assistance Project*.

Under this Program, the MNADV can provide *cost-free* train-the-trainer instruction and technical assistance to community-based domestic violence victim services programs and their partnering law enforcement agencies to implement the Domestic Violence Lethality Assessment Program (LAP) in their jurisdictions.

The LAP, a project of the MNADV, is a two-pronged intervention process that makes use of a specialized lethality assessment instrument and an accompanying protocol. Trained police officers on the scene of a domestic violence call assess a victim's risk for serious injury or death using the one-of-a-kind Lethality Assessment Screen. Officers immediately link "high risk" victims to the community-based domestic violence victim services program hotline in their area with the goal of having victims receive program services. The LAP enables police officers and local domestic violence victim services programs to work as equal partners in a more coordinated, communicative, and cooperative manner to engage victims who would, otherwise, be unlikely to seek the support of domestic violence services. The LAP is the *only* program of its kind in the nation and was recently honored as a Mary Byron Foundation "Celebrating Solutions" Award recipient and recognized by Harvard University's Ash Institute as one of the "Top 50" Innovations in American Government programs in 2008.

Scope of Project

Successful applicants will attend locally conducted LAP train-the-trainer instructional sessions. After attending the training, the trainees will be given up to three months to train their fellow law enforcement officers and program staff as they prepare for implementation of the LAP. Shortly after, a 3-month implementation period will begin, which includes collecting and reporting required data to assess each team's effectiveness in implementing the LAP in their jurisdictions. The MNADV will provide technical assistance over the telephone and by e-mail during all phases of this project.

- **Pre-Training Teleconference**

A teleconference for law enforcement and victim services program representatives who are policymakers and administrators will be arranged through your jurisdiction's **coordinator at least two weeks before the train-the-trainer session**. This teleconference will explain how the LAP works and will review implementation and administrative provisions. The teleconference will be conducted by the MNADV's senior law enforcement trainer and a domestic violence victim services program trainer. It will last approximately two hours.

- **Train-the-Trainer Session**

An MNADV law enforcement and a victim services program trainer, working as a team, will conduct a one-day, six-hour train-the-trainer session that must be attended jointly by participating law enforcement agency officers and victim services program staff who will provide in-service training to their officers and staffs. This session will be arranged through the appointed team coordinator/point of contact for a date **between April and July 2012**.

- **In-Service Training**

Through either a regular one-hour in-service session or over several roll calls, the newly instructed LAP trainers will conduct in-service training for their officers and victim services program staffs **to be completed by September 30, 2012**.

- **Implementation**

Implementation will occur no later than **October 1, 2012**; however, the LAP may be implemented as soon as in-service training has been completed. For the purposes of this project, implementation is only required for three months. The appointed team coordinator/point of contact will notify the MNADV of their jurisdiction's implementation date.

- **Data Collection**
LAP statistical data will be collected by law enforcement agencies and victim services programs during the 3-month implementation period for the purpose of providing a LAP statistical report to the MNADV.
- **Statistical Report Due Date**
A LAP statistical report will be forwarded to the MNADV **within two weeks following the end of the 3-month implementation period.** A reporting format will be provided to all jurisdictions.

Scope of Project Timeline Summary

- **Pre-training teleconference:** Held at least two weeks prior to each jurisdiction's train-the-trainer session.
- **Train-the-trainer session:** Conducted between April and July 2012.
- **In-service training:** To be completed by September 30, 2012.
- **Implementation:** To begin by October 1, 2012, for a three-month period.
- **Data collection:** Gathered during the three-month implementation period.
- **Data report due date:** Submitted to the MNADV within two weeks following the end of the three-month implementation period.
