## 2014 NYC Veterans Justice Symposium

**November 10, 2014**

**9:30am-12:30pm**

**New York Law School**

185 West Broadway New York, NY 10013

Female veterans and active duty service members face unique challenges both during their service and when they return home. Studies have shown that female veterans face higher rates of unemployment and homelessness than their male counterparts and that there are fewer resources made available for women veterans in need of care for PTSD, military sexual trauma, and even basic health. This year's symposium will examine these challenges and attempt to galvanize legal solutions.
