#### **What is a Web Conference?**

A web conference is an opportunity to attend a workshop by calling on your phone and watching a presentation from your computer screen using only your regular internet connection. If for some reason you are unable to join on your computer, you can print out slides of presentations and listen along on the phone. Contact Prevention Connection for more information about how to use this technology.

Prevention Connection is a national project of the California Coalition Against Sexual Assault and is sponsored by U.S. Centers for Disease Control and Prevention. The views and information provided in the listserv and web conferences do not necessarily represent the official views of the U.S. government, CDC, or CALCASA.

**Real Time Captioning Available.** Indicate in your registration if you be using real time captioning or any other assistive technology to access this web conference.
