Regarding: New Album Release: VOICES FROM BEYOND

FOR IMMEDIATE RELEASE

VOICES FROM BEYOND is an album of multi-faceted music by Los Angeles film composer Patrick Griffin, featuring himself and his brothers Paul, Michael, Larry, as well as Ginny and Ileana Griffin. The project was inspired by the tragic loss of the Griffin brothers' sister Julie Jensen (Griffin), a victim of an antifreeze poisoning murder by her husband Mark Jensen.

OurSisterJulie.com is a website created by the brothers that details the ten year unfolding of events since Julie's death in 1998 at the early age of 40. Serving as a tribute to the much loved mother of two boys, hundreds of thousands of viewers have been moved by the human tragedy of the high profile case. Not only was the trial aired in its entirety on CNN's TruTV, it was featured on ABC's 20/20 on February 29, 2008, and will be featured on CBS' 48 HOURS to be aired April 19, 2008. The seven-week trial of *Wisconsin vs. Mark Jensen* ended this February in the conviction of Mark Jensen, who received a life sentence with no parole.

The Griffins are professional musicians who created music as a family dedication to their sister Julie, whose letter she wrote before her death pointed suspicion toward her husband after she found amongst his items a deadly shopping list. The album is a reflective musical journey in which each title portrays a certain memory of Julie's life: her childhood, her mothering, her personality, to name a few.

"Julie was a positive, loving, and warm sincere person that I hope others can get to know through the music. It's very simple and accessible music with a mixture of stylistic elements including folk, classical, jazz and rock, but mostly it's about relaxing and going on a healing musical journey. It would bring a smile to her face seeing her brothers work together on something positive and lasting."

The much-anticipated album is immediately available from OurSisterJulie.com through CD Baby or iTunes, and will be added to more download services by the end of April. There is a free sampling on the website music page, as well as Griffin brother's biographies and a free pdf of album liner notes.

The Griffins wish to share their musical message of love and hope with everyone, and especially desire to encourage victims to escape their domestic abuse. A portion of proceeds beyond production cost will go toward a yet-to-be-determined women's abuse shelter.
